

ABOUT THE BAND

Solid Hits is a live party show designed for corporate festivals, celebrations and high-energy event settings. The concept is built around a direct, accessible presentation of well-known songs and a repertoire chosen for broad audience appeal.

The band focuses on successful pop, rock and disco favourites, with many songs presented in medley form. This format keeps the music moving and creates a continuous flow that works especially well for parties and large-format events.

Solid Hits combines a strong visual identity with a repertoire centred on familiar hits from different eras. The emphasis is simple: recognizable music, energetic performance and a show structure made to keep the atmosphere lively from one song to the next.
