

ZAC HARMON

GUITARIST | SINGER | SONGWRITER | PRODUCER

"As long as I have my guitar, all is good with my soul."

BIOGRAPHY

Award-winning guitarist, singer, songwriter and producer Zac Harmon delivers the blues with the depth, authority and emotional power of a true soul artist. His distinctive approach combines a commanding Mississippi blues sound, polished vocal phrasing and expressive guitar work, creating music that feels both deeply rooted and unmistakably personal.

Critics have praised Harmon as a masterful musician and performer whose style brings together the sophistication of Bobby 'Blue' Bland and the fiery guitar spirit of Freddie King. His powerful stage presence and broad musical vocabulary have also earned comparisons to blues greats such as Albert King and Bobby Rush, placing him firmly within the continuing tradition of modern American blues.

Harmon's work is driven by more than technical ability. At the centre of his music is a message of resilience, soul and connection. After a period of personal and creative reflection, he returned to the instrument that has defined so much of his life, expressing the realization that as long as he has his guitar, all is well with his soul.

For Zac Harmon, legacy is not measured only by recordings, performances or professional recognition. Family, roots, music and enduring friendships are equally important parts of how he hopes to be remembered. That perspective gives his work its warmth and humanity, allowing every song to carry the voice of an artist who understands where he comes from and why the blues continues to matter.

With a long and accomplished career as a musician, songwriter and producer, Zac Harmon remains a powerful ambassador for blues and soul - an artist whose sound honours tradition while speaking clearly to the present.
