

- Caribbean Swing
Cuban band

Caribbean swing band was created in 2017 by Cuban musicians graduated from music academies. That's a condition that allows us to interpret different music genres such as salsa, bachata, merengue, cumbia, chachachá, reggaeton, kisomba, pop, disco, reggae, ballad, rock and roll and more. We can sing in English or Spanish depending on what music genre we are performing.

Also, we have different formats within the band such as duo (flute and guitar) (singer and guitar) and trios (singer, guitar and flute) (guitar, flute and percussion) (singer, flute and piano)

Currently the band has 5 members. We continue to improve ourselves as a band.
